

Dear Coaches, Athletic Administrators, and Athletes

We understand that this can be a very trying time for everyone. With many Government mandated lock downs and cancellations, the National Education and Athletic Certification Association (NEACA) is making sure we are operating under these guidelines. With all of our courses being completely online and self-paced, the NEACA will be operating at full capacity. Our coaches will continue to work hard to make sure that coaches all around the nation can obtain their coaching licenses online.

We will make sure that this document gets updated if any further changes need to be met.

For more questions on how you can obtain your coaching license from the comfort of your own home, please reach out to Coach Tyler Brandt (Admin@educerts.org) or Coach Jason Clark (Assignments@educerts.org).
